Scholarships are only available to residents of the City of Howell, Oceola, Genoa, Marion, and Howell Townships. For more information, please visit [www.howellrecreation.org](http://www.howellrecreation.org).

Participants will have the opportunity to enroll in another activity if space is available. If an activity or class is cancelled due to inclement weather or circumstances beyond our control, the Howell Area Parks & Recreation Authority will make every effort to reschedule the activity. We follow the Howell Public Schools policy for inclement weather closings for most of our activities. Watch our website, Facebook, and Twitter posts for current cancellations.

*Providing a socially safe and healthy environment  
for all middle and high school students*

involved in the planning and organizing of events happening at the Teen Center such as late nights and fundraisers! Members of the board even have the opportunity to join with other teen committees in Southeast Michigan to plan state-wide events such as the Youth Symposium. Pick up more information at the Howell Teen Center and help take away the stereotype that comes with the word "teen." Meetings take place at the Teen Center.

Enroll your child today in one of our active, high-energy classes which offer positive parent-child experiences and a love of learning. Your child will enjoy music, art, dramatic play, storytelling, and much more! Each class is prepared to be a quality learning experience. Using concepts from Creative Curriculum, our play-based program allows children to investigate the world around them using hands-on activities as well as field trips and community visitors. Our program is well established and our teachers are certified with many years of experience teaching with different programs.

Our programs are based on the belief that children learn through their interaction with adults, children, and their environment. Supportive interactions lead the child to a positive self-image that will provide a sound basis for all subsequent learning. Our programs are designed to enhance social, emotional, cognitive, physical, and creative growth. We emphasize the importance of working cooperatively with parents to achieve this goal.
